

East Bay Municipal Utility District

Business Continuity Plan Engineering and Construction Department

Includes: Engineering Administration, Water Distribution Planning, Pipeline Infrastructure, Design, Engineering Services and Construction

FY18

Last Update FY16

The District-Wide Business Continuity Program Plan (BC Program Plan) contains sensitive information that has restrictions on its use. Distribution (in whole or part) must be in compliance with District Procedure 312.

When the District is responding to an emergency incident, the BC Program Plan can be released to outside official entities within the unified command structure. The Emergency Operations Director can direct the release of the BC Program Plan to outside official entities at any time.
